

Objective: Develop process/event in which community partners can help students design and develop meaningful projects to fulfill their service-learning and culminating project requirements.
(This must be coordinated with other efforts and align with teacher expectations)

Theme: Environmental Health

Who: 10th and 11th grade students from the HEAL (and ESA ?) Academies
Community Partners (Health and Environment)
Teachers available

What/Why: Workshop in which...

- Community partners can provide information, ideas, resources etc. to students/teachers and have a venue for sharing their expertise/resources
- Teachers can explain the expectations, while facilitating activities (pre and post) and providing tools that can assist students in the development process
- Students can get ideas, information, and resources while going through a process that will help clarify the expectations, assist them in the development stage, and help them see the value and opportunity in developing meaningful projects.

Where: Cleveland High School

When: March 29th (tentative) 12:30pm to 2:15pm

Tentative Agenda:

12:30pm – 12:40pm – Welcome, Context Setting, Purpose of Event

- *Recognize the “requirement” but present it as an opportunity*

**12:40pm – 1:10pm – Engaging 5 minute presentations by panel of community partners (or a coordinated presentation/activity
(i.e. videos, stories, activities, role plays etc.)**

- *Exposes students to variety of topics, issues, data etc.*

- *Help students see the connection between health and environment and the variety of ways it can be integrated into their project topic*

1:15pm – 1:20pm -- Transition students to grade level groups

1:20pm – 2:05pm -- Small Group/Individual activities that will help students identify interests and begin to develop a project plan

- *Students participate in activities that will help inform their project design*

- *Students begin to identify opportunities and resources*

- *Students make connections with community partners/organizations*

- *Students begin to develop a plan for developing their project*

2:05pm – 2:15pm -- Evaluation and Closing
